Centre

Mobilise leadership and collaboration to strengthen research translation

Leadership initiatives

- Embed research in health systems
- Orient research around impact
- Measure and communicate impact
- Support increased funding opportunities

Research is embedded in the health system to deliver impact

Develop the state-wide research translation pathway

System initiatives

- Improve data access and analytic capacity
- Improve clinical research processes
- Advance commercialisation practices
- Increase consumer/community participation

More effective and efficient systems to enable impactful and suitably informed research

Build expertise and capacity in research translation

Capacity building initiatives

- Facilitate workforce development
- Convene and support courses and events
- Mobilise fellowships and scholarships

Enhanced workforce capacity

Deliver and support state and national projects

Better care initiatives

- Fund, enable and/or support
 - Flaaship Programs
 - · MRFF funded projects
- Support and facilitate AHRA National System Level Initiatives and Interest Groups

Health care improvements in priority areas:

Healthy Ageing, Aboriginal Health, Colorectal Cancer, Heart Disease, Diabetes, Renal, Stroke, Mental Health, First 1000 days, Social Determinants, Acute/Primary Care Interface and Prevention and Public Health

Accelerated translation of evidence into practice for improved health outcomes
